

COACHSURFING RECEPTION CENTRES

The following coachsurfing places are located in small villages and hamlets where there are no accommodation services. The municipalities cede these spaces free of charge although they occasionally request a small contribution for their maintenance. These places have the sole purpose of solving the lodging problem for those travelers who have not been able to book a room in the accommodations of the surrounding villages. You have to understand that it is quite possible that you will not find great comforts. Sometimes it's just a covered space where you spend the night with your sack and mat. Even so, respect and care for these points so travelers **come after you can do the same.**

Warning: It is highly recommended to call at least one day in advance. If you call from outside of Spain please dial 34 before the phone number. Remember that it is very common that the contact person doesn't speak English.
